

REESTABLISH THE PELEE ISLAND MEDICAL CLINIC

On July 1st the operations of the Pelee Island Medical Clinic were drastically changed. The clinic no longer provides RN's 7 days a week or 24/7 medical coverage to care for patients who need medical attention until they can be transported off the Island.

The Township of Pelee encourages everyone to **comment on the social media sites** of the individuals listed below to request that they take immediate action to reestablish appropriate health care in our community; we must let our voices be heard by expressing our opinion to keep the clinic opened.

Addresses have been provided for those individuals who do not access the internet.
