

Notice: Municipal Services Update

Given the rapidly changing public health situation, and based on recommendations from the Windsor-Essex County Health Unit (WECHU) to move to essential services to mitigate risks and slow the spread of COVID-19, the Township of Pelee is expanding COVID-19 precautions with the following service level changes:

- The Township of Pelee Municipal Office will close to the public effective 8:30 a.m. on Thursday, March 19, 2020. Although the building will close to the public, municipal staff will be available to assist and service residents by telephone or electronic means only. Please contact us by phone at **519-724-2931** or use our website at www.pelee.org to access municipal information and services. Phones will continue to be answered during regular business hours between 8:30 AM and 4:30 PM from Monday to Friday.
- Members of the public who need to make a payment are encouraged to use electronic options (bank, online, e-transfer), or mail in their payment or use the drop box located on the front porch of the municipal office located at 1045 West Shore Road.
- **The Transfer Station** will remain open as per seasonal hours of Wednesday and Sunday 1:00 p.m. to 4:00 p.m. The municipality asks that you consider the health and safety of the transfer station attendant and other members of the public and do not come to the facility if you are showing symptoms.
- The Airport building will only be open when a scheduled flight through the regular Canadian carrier is scheduled.

These service level changes are being undertaken out of an abundance of caution to help mitigate the risk of transmission of COVID-19 within our community.

Updates will be posted on the municipal website and social media pages as the situation evolves.

The health and safety of our residents, staff and visitors remains a high priority, and we will continue to monitor the situation and consult with the WECHU, going forward.

Community Preparedness – What Every Resident Can Do

- For more information on the Coronavirus, its potential impact on the community and tips on how best to protect yourself in your daily activities, please visit the WECHU special web page: [Novel Coronavirus \(2019\)](#). Along with the preventative information provided by the WECHU.
