

Proposal for Pheasant Hunt 2020

Goal:

To maintain an 80 year tradition, while being fiscally responsible.

Timing:

Bird orders need to be placed by May 5th for both suppliers. Gives us approximately 3 weeks to canvas and request hunters to purchase their licenses. Order enough birds for 11 birds per paid license. Birds will be supplied fully grown from Mainland suppliers and released the days before the hunts.

Dates:

Maintain and advertise 3 main hunts only at this time, clean up hunts to be announced at time of first hunt based on current news at the time – possibly only 1 clean up hunt.

Rules:

Licenses are good for 2020 only. Can be used on any of the 2020 hunts. Licenses can be transferred to another hunter. Cost for a license is \$250 plus HST

Release of Birds:

Full grown birds will be released in Prime areas in a focused manner that will allow for an exceptional hunting experience.

Unfortunately given the current circumstances The Township of Pelee Island cannot guarantee a 2020 hunt but will be prepared for the for it!
